

OSA-0133-70

8 April 1970

MEMORANDUM FOR: Director of Special Activities
SUBJECT : Field Travel for Psychology Staff

1. This memorandum contains a request in paragraph 4.

2. [] and [] of the PSS Staff of OMS are responsible for giving RTI Training. The program calls for a yearly rebriefing of project pilots who have had the training course.

3. The PSS Staff is also assisting other OSA Programs in selecting candidates and advising them on human factors. We are anticipating using psycho-physiological and equilibrium testing for this purpose. This involves motor, sensory, and memory responses in confrontation with other signals such as bells, lights, and other confusing stimuli. If these prove satisfactory, it possibly may be used later for [] operators.

4. It is requested that the above-mentioned doctors travel to Edwards AFB on or about 26 April 1970 to rebrief project pilots on RTI training with a stopover at Lovelace Clinic, Albuquerque, New Mexico, in order to be briefed on this program. This would benefit OSA as well as the Agency.
